

LEADERSHIP PROGRAM 360

Leadership is a journey and ThreeFish understands that every leader is in the process of writing their own leadership story – but is this based on fantasy or reality? ThreeFish's Leadership 360 program takes a programmatic approach to leadership development.

- Leadership 360 Survey is an online survey consisting of 40 multiple-choice questions and targeted open-ended questions, taking approximately 15 minutes to complete.
- Leadership 360 Competencies are based on the Domain Model of Leadership that allows all competencies to be understood within 4 domains of core leadership behavior - Self-management skills; Relationship management skills; Leadership skills; Professional skills.

We also design custom 360 survey based on organizational competencies.
